Career Objective

Computer Science undergraduate graduating in 2028 with a strong academic record (CGPA 9.3) and foundational knowledge of programming, data structures, databases, and operating systems. Seeking software development internship opportunities to apply problem-solving skills, contribute to team projects, and continue learning through practical engineering work.

Education

Bachelor of Technology (B.Tech), Computer Science
SR University, Warangal — Expected Graduation: 2028
CGPA: 9.3

Intermediate
Resonance College — Score: 93.5%

High School
Narayana School — CGPA: 9.7

Technical Skills

Programming: C, Python, Basic C++
Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems
Additional: Smart System Designing

Relevant Coursework

Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Organization and Architecture, Theory of Computation

Projects and Research

Smart Street Light and Rain Alert System
Academic project using Arduino UNO, LDR, IR sensor, rain sensor, LEDs, and buzzer. The system concept combines automatic light control based on ambient light or vehicle detection with a rain-triggered alert.
Technologies: Arduino UNO, sensors, embedded systems

Mental Health in Psychology
Completed an academic project focused on mental health in the field of psychology.

Data Structures and Algorithms – Patent Writing
Worked on patent writing related to Data Structures and Algorithms. Patent status was not specified.

Certifications

- C Programming Certificate – SoloLearn
- Mathematics and Physics Certificates – Coursera

Achievements and Extracurricular Activities

- Inter-school basketball and volleyball player.
- Red Belt in Taekwondo.
- Member of the School Student Council.
- Environmental activist.
- Actively participated in awareness campaigns.

Management Knowledge

Human Resource Management, Strategic Management, Marketing, Business Economics

Soft Skills

Communication, Adaptability, Collaboration, Event Management
